Cancellation Policy: PHA will provide a credit in place of any cancelled workshop, event or product that has been paid for in advance. The credit may go toward any session, event or product to be used within a one year period from the date of cancellation. The amount of the credit will be minus 25% of the cost of the original purchase price. No credit will be given for no-shows or for cancellations within three weeks of the session.

Register online at www.pahomecare.org or return this form with a check made payable to PHA, 600 N. 12th Street, Suite 200, Lemoyne, PA 17043 or fax to (717) 975-9456.

Simplifying HIS: Hospice Item Set Training

SIMPLIFYING HIS Hospice Item Set Training

July 13, 2017, 8 a.m. - 3 p.m.
Nittany Lion Inn, State College

5.5 Nursing CEs Available

Hotel Info: (800) 233-7505
Rate: \$139; Code: OAST17A

Effective & structured education targeted for quality managers, HIS abstractors, field clinicians & supervisors! Experience a comprehensive one-day workshop and learn to confidently teach, audit and report HIS items accurately. Gain familiarity with the measures involved in the Hospice Quality Reporting Program, and learn how the measures are calculated based on the new HIS item data. Through guided instruction and participation in problem-solving scenarios, achieve mastery of the HIS items with guidance for item completion and resources available from CMS to support your ongoing accuracy.

Doreen "Dodie" Johnson RN, MSN, ANP-BC

Dodie is a Certified Nurse Practitioner with a Master's Degree in Nursing Administration. She has worked in clinical and administrative roles in hospice and home health, and has managed business development and physician alignment for oncology and surgical services in a multi-hospital system. She was a founding board member of the Hospice Nurse Certification exam, developing content and testing for construct and content reliability. Currently she provides content expertise and management support for the CMS Hospice Quality (HIS) Mailbox and OAI's CMS Home Health Contracts.

Webinar: Conquer Hospice Coding Hang-Ups

July 19, 2017, 1 - 2:30 p.m.
1.5 Nursing CEs Available

Medicare's hospice ICD-10 coding focus started slow, giving some agencies the impression that such diagnosis coding scrutiny would blow over once hospices reimbursed pharmacies for specific drug classes billed to Medicare Part D. Instead, the storm is stalled over hospice, spreading its impact over all services to hospice patients and requiring hospices to list every condition present in hospice patients on hospice claims and care plans. At the eye of the storm is ICD-10 diagnosis coding. Join Beth Noyce, RN, HCS-H, HCS-D, COS-C, BSJMC, to study current ICD-10 coding rules as they apply specifically to hospice providers. Potential pitfalls abound. Learn to avoid or navigate safely such barriers to hospice ICD-10 diagnosis coding success.

Attendees can submit a scenario to jhaggerty@pahomecare.org in advance to be discussed in detail during the webinar.

Beth Noyce, RN, BSJMC, HCS-D, COS-C, HCS-H

Beth Noyce provides consulting, mentoring, compliance assessments, education, and auditing services to home health and hospice agencies and their clinicians in several states. Beth loves teaching and helping others succeed. She draws on more than 30 years of experience as a home health and hospice nurse. She has published in DecisionHealth's Diagnosis Coding Pro, edits and writes certification study guides, writes hospice and home health on-line courses for DecisionHealth, and has performed home health and hospice clinical software training for agencies nationwide.
