OASIS-C2 Accuracy

Right Assessment, Right Answer, Right Care

June 7-8, 2017 *(Optional HCS-O Exam: June 9)*

Penn Stater Hotel and Conference Center, State College

OASIS-C2 Accuracy is an intermediate level, two-day workshop designed to provide home health field clinicians, QA reviewers, educators, and managers with the knowledge and information necessary to accurately apply CMS guidance in the completion of critical OASIS-C2 items. This interactive workshop will examine the impact of OASIS-C2 accuracy related to the following vital areas: HHRG assignment/reimbursement, quality outcome/process measures, and the Home Health Star Rating system, including risk adjustment. New measures mandated by the IMPACT Act (Worsening of Pressure Ulcers and Drug Regimen Review with Follow-up) and the OASIS-C2 items related to these measures will be discussed in depth. Attendees will have the opportunity to test their OASIS-C2 knowledge and assessment skills and apply current guidance in patient scenarios using a variety of assessment strategies.

Objectives

- Identify purposes, use and rationale for revision of OASIS-C2 data set used by Medicare home health agencies

- Identify core documents and regulatory requirements that provide basis for compliant and accurate use of OASIS-C2

- Describe relationship of OASIS-C2 to home health agency reimbursement, risk adjustment of quality measures and the CMS Home Health Quality Reporting Program (HHQRP), including Home Health Compare, Home Health Star Rating system, and Value Based Purchasing

- Define CMS criteria for accurate assessment and completion of OASIS-C2 items critical to reimbursement and quality reporting, to include use of the guidance manual, current Q&As, and selected strategies and tools to improve accuracy and avoid errors
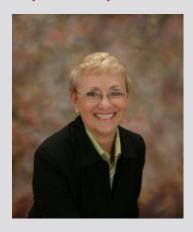

13 Nursing CEs, 13 BMSC CEUs Available

About the Instructor...

Ann Rambusch
MSN, HCS-D, HCS-O, RN

Ann is a nationally recognized expert and educator in home health coding and OASIS-C. She has more than 15 years of experience as an administrator and consultant for both private and hospital-based home health and hospice agencies. Ann serves as a member of the Board of Medical Specialty Coding and Compliance (BMSC). She is the principal author of the HCS-O OASIS Certification exam which was introduced in 2011 by BMSC and is the technical editor of *The OASIS Trainer Manual*, a scenario-based training manual.
